Summary

Software Developer and former cosmetologist (10+ years experience) excited to transfer my creative, problem solving, and teamwork skills into a career offering scalable technical solutions for the software and web development industry. Proficient in 3 full stacks (Python, MERN, C#)

Technical Skills

Languages | Javascript(Node.js), C#, Python, HTML5, CSS, SQL **Frameworks/Libraries** | ReactJS, Express, Bootstrap, .NET, Flask, Jinja2, Axios **Databases** | MySQL, MongoDB **Tools** | REST API, JSON, Postman, MySQL Workbench, Github, AJAX

Technical Projects

Web Developer | Cocktail Hour | Javascript, ReactJS, Axios, CSS, HTML, Bootstrap | [Github](#) | [Link](#)

- Created a responsive multi page ReactJS app using The Cocktail DB public API to allow an extensive API database search and randomized selection of cocktail recipes
- Utilized CSS and Bootstrap to create a clean design with easy navigation

Full-Stack Developer | Spa Model | C#, .NET, HTML, CSS, Bootstrap, MySQL | [Github](#)

- Created a responsive multi page website for spas and spa service providers to make postings seeking volunteer models for training purposes
- Incorporated login and registration functionality, including hashing user passwords, and proper validations
- Utilized a MySQL database to store registered users credentials and postings

Web Developer | Grocery List | Javascript, ReactJS, CSS, HTML | [Github](#) | [Link](#)

- Created a single page app that allows users to create a grocery list that they are then able to edit and delete item by item or the entire list itself
- Added alerts for when a user successfully adds or edits an item, or when the input field is left blank
- Implemented a dark/light theme slider so users can view the app based on their preference

Professional Experience

Nail Technician | Denver, CO
